

RAFTOP CPAP CARE Pro - Client Start Portal v1.0

Client-facing handover portal for controlled use, onboarding, data intake, support boundaries, and resale launch planning.

Start here: This portal is the readable version of RAFTOP_CLIENT_START_PACK_v1.0. It does not contain credentials, source code, GitHub access, database credentials, secrets, internal scripts, or developer-only logs.

1. Start Here

Initial orientation for what Raftopoulos receives, what the platform does, what it does not do, and the first operational workflow.

[Open Start Here](#)

2. Production Access

How to start controlled platform access, activate the buyer tenant, set users, and test first login.

[Open Access Guide](#)

3. Data Intake

CSV template, data dictionary, sample rows, validation checklist, and privacy/identifier rules.

[Open CSV Template](#)

4. Onboarding Runbook

Kickoff, first week execution, first month operating rhythm, ATLAS routine, management review, and blocker escalation.

[Open Runbook](#)

5. Support / SLA / Change Requests

Defines support scope, incident severity, bug versus change request, out-of-scope items, and support request format.

[Open Support Scope](#)

6. Resale Launch Kit

Doctor/clinic packages, sales talk track, onboarding flow, tenant provisioning, reseller support, and resale boundaries.

[Open Resale Kit](#)

Operational start sequence

Step	Action	Output
1	Open this portal and read Start Here	Shared understanding
2	Confirm receipt of delivery pack	Receipt confirmation
3	Confirm named users	Buyer admin, operations user, management viewer, technical/data contact
4	Confirm credential delivery channel	Credentials delivered separately
5	Book 60 minute kickoff	Kickoff scheduled
6	Prepare first data sample	CSV/data preview ready
7	Book first operational review	Review 3 to 7 days after kickoff

Security boundary: Credentials must be delivered separately. Do not send passwords, secrets, database URLs, Render settings, GitHub secrets, or uncontrolled patient identifiers through unsecured channels.

Delivery files

File	Purpose
03_DELIVERY_MANIFEST.md	What is included and excluded from delivery
04_SECURITY_BOUNDARY.md	Security and credential separation rules
05_VERSION_LOCK.md	Version lock and readiness chain

RAFTOP CPAP CARE Pro - Client Start Portal v1.0. This package supports operations, reporting, and follow-up prioritization. It is not a diagnostic medical device.
